SUMMARY :

Proficient in front-end development with hands-on experience in building responsive and user-friendly web applications using HTML, CSS, JavaScript, and modern frameworks.

TECHNICAL SKILLS :

- Frontend – HTML, CSS, JavaScript, Nextjs
- Backend – Node.js, Express.js
- Database – MySQL, MongoDB
- JAVA Core and Advance, C, C++

SOFT SKILLS :

Communication | Problem-Solving | Team leadership | Time management | Adaptability
Excellent verbal and written communication skills with the ability to convey complex technical concepts clearly and effectively.

EXPERIENCE :

- The Kiran Academy : Full stack development in JAVA || Duration - Jan 2025 - Present

Got selected from college for the training and internship program in full stack development (Java) and enhanced my skills in JAVA core and advance.

- NetLeap IT Solutions : Intern Front-End Developer || Duration - 31 Dec - 15 Feb.

Developed front end for a Event Management Project which dedicated to contributing to seamless event management for the people in the relative field.

Lead my team in building this project and enhanced my skills in HTML, CSS and JavaScript in this project.

PROJECTS :

- Event management website:

Tech Stack – HTML, CSS, JavaScript, PHP, Nextjs

[View Event management Project](#)

In this Project we had made user module and admin module, we had provided Home page, Service page, Login page, Sign Up, Booking page and about us for the user understanding and given proper guidance about website.

- AI powered mock interview platform:

Tech Stack – HTML, CSS, JavaScript, Python, Jupyter notebook.

This is an innovative platform designed to help individuals prepare for real-world job interviews the entire interview process. | Details of modules : User Registration module, Resume parsing module, Question generation module, Interview simulation module.
